

## **Features:**

Fomblin® vacuum pump fluids are non-flammable, chemically inert and thermally stable. When used with proper pump filtration, Fomblin® PFPE fluids provide exceptionally long service life. These fluids have excellent lubricity properties and are available in viscosity grades suitable for use in all vacuum pumps. Other container sizes and grades are available on special request.

- Non-Flammable
- Safe for Oxygen Service
- Resists Attack by Corrosive Gasses
- Low Vapor Pressure
- Extended Service Life

Hewlett Packard Krytox (#6040-0730)

## **Specifications:**

<b>Vapor Pressure @ 20 °C:</b>	3 x 10 <sup>-6</sup> torr
<b>Viscosity @ 20 °C (cst):</b>	64
<b>Viscosity @ 100 °C (cst):</b>	4
<b>Pour Point:</b>	-50 °C
<b>Flash Point:</b>	None
<b>Fire Point:</b>	None
<b>Boiling Range:</b>	>250 °C
<b>Density:</b>	1.88 g/mL
