

## **Features:**

Inland geminYe® perfluoropolyether (PFPE) family of lubricants are non-flammable, chemically inert, and thermally stable. geminYe® fluids have excellent lubricity properties and are available in viscosity grades suitable for use in all vacuum pumps. When used with proper filtration, geminYe® fluids provide exceptionally long service life.

- Low vapor pressure
- Oxygen Compatible
- Non-Flammable
- Solvent Resistant
- Low relative weight loss
- Chemically Inert
- CFC free - Ozone friendly
- High thermal stability
- High dielectric properties
- Good radiation stability
- No flash or fire point
- Excellent compatibility with metals, plastics, and elastomers
- Reclaimable
- Made in USA

## **Specifications:**

|                               |                           |
|-------------------------------|---------------------------|
| <b>Vapor Pressure @20 °C</b>  | 1 x 10 <sup>-7</sup> torr |
| <b>Vapor Pressure @100 °C</b> | 3 x 10 <sup>-5</sup> torr |
| <b>Viscosity @20 °C</b>       | 261 cSt                   |
| <b>Pour Point</b>             | -48 °C                    |
| <b>Flash Point</b>            | none                      |
| <b>Fire Point</b>             | none                      |
| <b>Density @ 20 °C</b>        | 1.90 g/cc                 |
