

Description:

Inland FF-45 solvent-free flushing fluid is specifically designed to be used with pumps operated with synthetic hydrocarbon fluids, such as Inland 45. Periodic use of FF-45 to remove pump contaminants and particulates will prolong pump life to avoid expensive rebuild cost.

Features

- Low cost
- Compatible with all synthetic hydrocarbon fluids
- Maintains maximum pump efficiency

Specifications

Vapor Pressure @ 25 °C:	2 x 10 ⁻⁵ torr
Viscosity @ 40 °C :	26 cst
Viscosity @ 100 °C :	4 cst
Flash Point:	240 °C
Fire Point:	252 °C
Density:	0.83 gm/cc
