

Features:

Inland geminYe® perfluoropolyether (PFPE) family of lubricants are non-flammable, chemically inert, and thermally stable. geminYe® fluids have excellent lubricity properties and are available in viscosity grades suitable for use in all vacuum pumps. When used with proper filtration, geminYe® fluids provide exceptionally long service life.

- Low vapor pressure
- Oxygen Compatible
- Non-Flammable
- Solvent Resistant
- Low relative weight loss
- Chemically Inert
- CFC free - Ozone friendly
- High thermal stability
- High dielectric properties
- Good radiation stability
- No flash or fire point
- Excellent compatibility with metals, plastics, and elastomers
- Reclaimable
- Made in USA

Specifications:

Vapor Pressure @20 °C	2 x 10 ⁻⁷ torr
Vapor Pressure @100 °C	1 x 10 ⁻⁴ torr
Viscosity @20 °C	142 cSt
Pour Point	-54 °C
Flash Point	none
Fire Point	none
Density @ 20 °C	1.89 g/cc
