

## **Features:**

Inland geminYe® perfluoropolyether (PFPE) family of lubricants are non-flammable, chemically inert, and thermally stable. geminYe® fluids have excellent lubricity properties and are available in viscosity grades suitable for use in all vacuum pumps. When used with proper filtration, geminYe® fluids provide exceptionally long service life.

- Low vapor pressure
- Oxygen Compatible
- Non-Flammable
- Solvent Resistant
- Low relative weight loss
- Chemically Inert
- CFC free - Ozone friendly
- High thermal stability
- High dielectric properties
- Good radiation stability
- No flash or fire point
- Excellent compatibility with metals, plastics, and elastomers
- Reclaimable
- Made in USA

## **Specifications:**

<b>Vapor Pressure @ 20 °C</b>	2 x 10 <sup>-8</sup> torr
<b>Vapor Pressure @ 100 °C</b>	2 x 10 <sup>-4</sup> torr
<b>Viscosity @ 20 °C</b>	180 cSt
<b>Pour Point</b>	-42 °C
<b>Flash Point</b>	none
<b>Fire Point</b>	none
<b>Density @ 20 °C</b>	1.89g/cc
